JOHN WILSON, Director of School Facilities & Operations

JOSEPH COTTER, Assistant Director of School Facilities & Operations

ROBERT NELSON, Assistant Director of School Facilities & Operations

Central Administration Office • 144 Todd Hill Road • LaGrangeville, NY 12540

Voice (845) 486-4977

NOTICE TO PARENTS, GUARDIANS, AND SCHOOL STAFF

In compliance with requirements of the Asbestos Hazard Emergency Response Act (A.H.E.R.A.), the Arlington Central School District submitted Management Plans to the New York State Education Department.

This letter will serve as the required notification that the District maintains a complete set of A.H.E.R.A. Management Plans at the Administrative Office at 144 Todd Hill Road, LaGrangeville, New York. In addition, each school maintains in its Administrative Office a complete updated copy of the Management Plan for that school.

The Management Plan includes information regarding the District's procedures for inspections, response actions, and post-response action activities, including periodic reinspections and surveillance activities that are planned or are in progress. Every six months, BOCES and district personnel complete the required visual inspection of affected areas. The District also completes a required three year re-inspection which is performed by an accredited asbestos building inspector.

The Management Plans are available for inspection by the EPA, State or public during normal business hours.

If you have any questions, please feel free to contact John Wilson, Asbestos Designee, at (845) 486-4977.

John Wilson
