

# Proper Placement of your AHSMB Varsity Letter, Pins, Patches

Line up the center of the hole in the “A” with the student’s name.

When you receive your pins, place them on the jacket in the following locations:

Championship patches from the NYSFBC go down the outside of the LEFT arm. Start the first patch 3" down from the seam. All additional patches will be spaced 1" apart and continue down the left arm.

BOA, USBand, WGI, MAC and other patches go on the RIGHT arm.  
Start the first patch 3” down from the seam. All additional patches will be spaced 1” apart and continue down the right arm.

Tips for Best results:

-DO NOT use glue or adhesive to attach the Letters

-Sewing the perimeter of the patch to the jacket is the best method. Use a matching color of thread to the board of the patch. If you do not feel comfortable with sewing the letter, most tailor shops will handle this for a nominal fee.
